

National Research University Higher School of Economics  
Faculty of Computer Science  
Bachelor's Program "HSE University and University of London Double Degree  
Program in Data Science and Business Analytics"

# Introduction to Programming

## Workshop #1

Wed 13.01.2021

Julio Carrasquel

NATIONAL RESEARCH  
UNIVERSITY

# Welcome to the seminars!

- Teacher for Groups 203-1 and 204-2:

Julio Carrasquel

Research Assistant | PhD Candidate at [pais.hse.ru](https://pais.hse.ru) (T923)

- e-mail: [jcarrasquel@hse.ru](mailto:jcarrasquel@hse.ru)
- Telegram: [@juliocarrasquel](https://t.me/juliocarrasquel) (for urgent matters)
- The SmartLMS course website is being prepared... (there we will have material, control works, forums)
- Classes via Zoom (check your schedule)
- Consultation hours via Zoom (preliminary for Saturdays 14:00-15:20). Write before to request consultation.

# Outline

- Tools – Installation and Configuration
- Creating a “Hello world” program in QtCreator
- Step-by-step compilation in the console.
- CmakeLists.txt, project structure, and headers
- C++ features and references
- Exercise

# Tools – Installation and Configuration

- **C++ compiler:** gcc/g++ in Linux, clang in Apple, and MinGW in Windows.
  - How to install MinGW in Windows 10:  
<https://www.youtube.com/watch?v=sXW2VLrQ3Bs>
- **Cmake:** Pre-installed in Linux and Apple. In Windows, download it at <https://cmake.org/>
  - How to install Cmake in Windows 10:  
<https://www.youtube.com/watch?v=sXW2VLrQ3Bs>
- **QTCreator IDE:** Download community version at:  
<https://www.qt.io/download-open-source>

# Creating a “Hello world” program in QtCreator

*[demonstration during the seminar]*

# Step-by-step compilation in the console

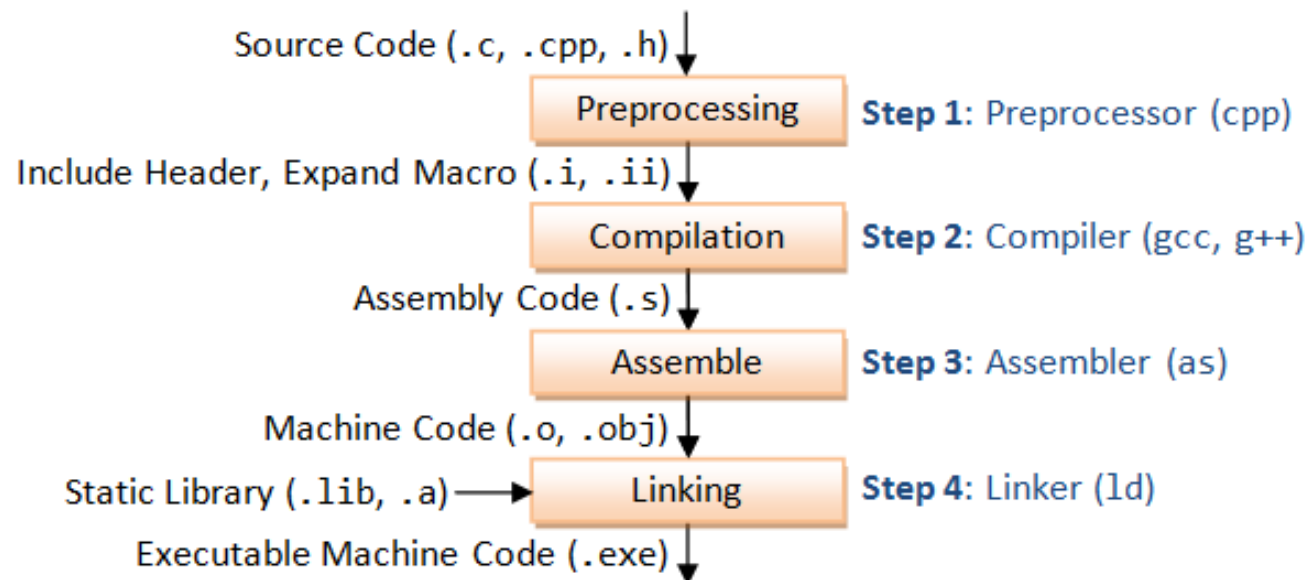

## Quick compilation:

```
g++ main.cpp -o main.exe
```

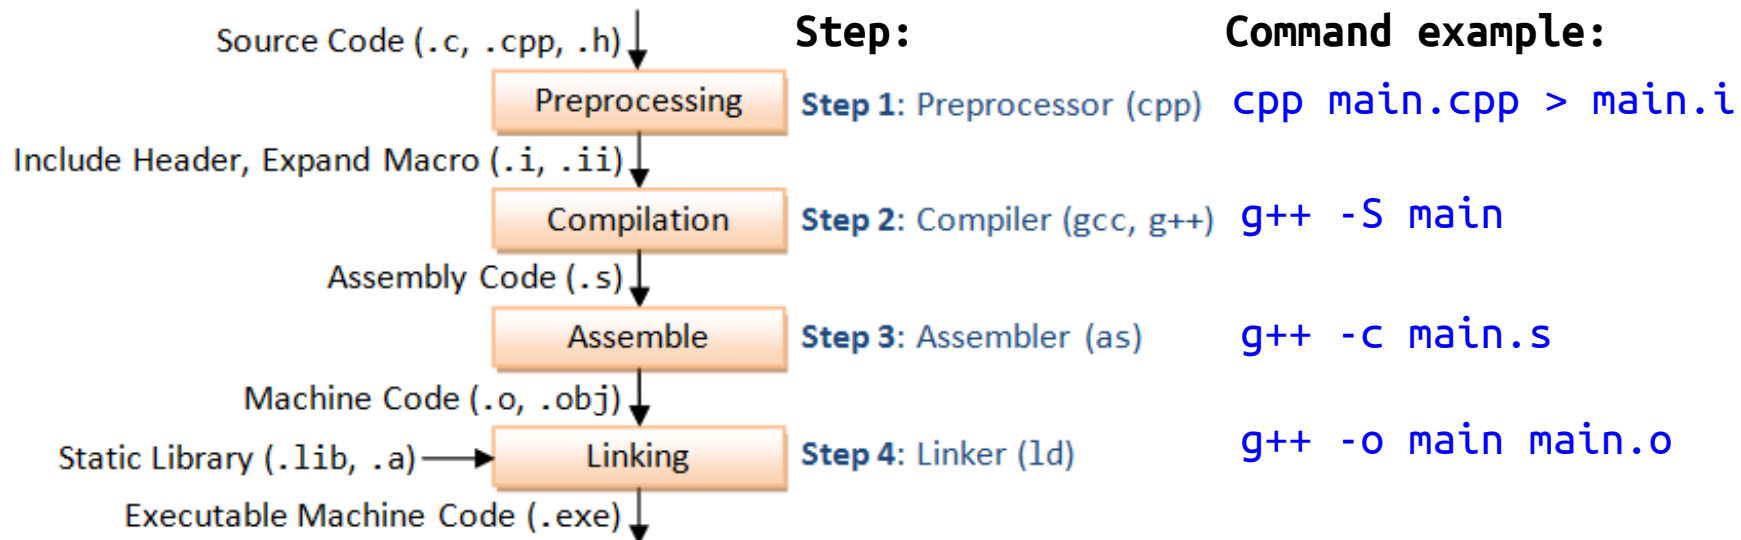

## Execution:

main.exe in Windows or ./main in Linux

# Step-by-step compilation in the console

# Step-by-step compilation in the console

# CMakeLists.txt

- CmakeLists.txt file contains a set of directives and instructions describing the project's source files and targets.
- **Additional reference at:**  
<https://www.jetbrains.com/help/clion/cmakelists-txt-file.html>

*[open Shershakov's example project]*

# Project structure and Headers

*[extend ex2 in Shershakov's example project]*

# C++ features and references

- See the cheat-sheet accompanying these slides for a quick overview on C++ features.
- **Websites to consult for libraries:**
  - <http://cplusplus.com/>
  - <https://en.cppreference.com/w/>
- **Book:**
  - *C++ Primer Plus (Sixth Edition). Stephen Prata, Addison-Wesley, 2012*

# Exercise

- Write a program in C++ that reads an integer value  $x$  and computes the following functions:

$$y1 = \sin(x)$$

$$y2 = x^3$$

Results  $y1$  and  $y2$  must be printed using `std :: cout`
